SECOND DAY REGINA vs. ANGELO.

August 12th, 1859.

The jury appeared in court, and answered to their names, at 10 o'clock, a. m.

The next witness called was Mr. Hamly. Examined by the Att. General. Witness assumed permit shewn him for 701 barrels of flour, to be an export permit; had seen the permit before in Custom House; it was brought at the same time as the book in which it should have been entered; it was shown witness by Mr. Angelo, who made a statement that he had received \$1.; witness told him he thought it was a forgery; it was dated Nov. 25th, 1858; if Angelo had wished to prove the genuineness of the document, it could only have been done by bringing forward the party in whose name it was issued ; when witness told Angelo it was a forgery, he scarcely replied, and never referred to it afterwards; could not make out the name on the permit; the duplicate has not been found : this is the du-

plicate has not been found: this is the du-plicate, not the original permit; has exam-ined the duplicate in the office; there is none answering to this in the office; Cross-examined by Mr. Wight. Mr. Angelo brought the permit, not Mr. Big-ham; witness thought a forgery had been committed; he had gone over the books, and it was not entered; the mistake was in Angelo's favor; can not say where the flour Angelo's favor ; can not say where the flour was sent; believed it was forgery, because it was dated wrong; the ink was fresh, and made out in Angelo's writing; witness believed that Mr. Jeffrey kept no account of goods which went up the river; it was after witness took office that the books were examined; when doing so asked Mr. Angelo for explanations, who never re-fused to give information; when he found a discrepancy he asked Mr. Angelo for information not money; there were other errors besides Mr. Angelo's, in the books; he applied to Angelo for explanation behe applied to Angelo for explanation be-cause he received the money; he judged by the books there was a deficiency on the 25th November, 1858; has never known a deficiency since he took hold of the books; has seen money received by Angelo placed in cash-box; Anderson put money in the same cash-box; the safe was partially open during the day; the money in the cash-box was put in the safe at night; the money was counted at night; it was Angelo's cus-tom to count the money; other parties

do so; never applied to Mr. Sam'l Bigham to look over accounts; did not think that Mr. Angelo produced the forged permit again, and never heard of it afterwards; unintentional irregularities might take place in the office ; witness was not trained to Custom House business; has expressed to Custom House business; has expressed an opinion that various errors were not in-tentional; Mr. Angelo handed no sum to winess as a surplus; witness thinks \$135 was produced before him as a surplus; the sum of \$20 might have been contained in that sum; Mr. Angelo handed over the surplus willingly. Direct examination by Att. General.—It must the dute of the incoment semulations.

was the duty of the issuer of permits to enter the name of the party concerned on the permit and in the book ; there are no means of detecting the amount of duty paid when permits are made out and entered in blank; it is impossible not to miss money when accounts are made up in the evening, if it has been paid in; witness has gone over all the books and permits in the office: has found in the office two duplicates not entered; a great many which came down the river were not entered; the 42 permits were almost all signed by Angelo; the sig-nature purports that the duty is paid on permits to British Columbia; from the time witness took office, Mr. Angelo took charge of money; has found entries in Angelo's hrnd-writing relating to surplus, in the books.

The next witness was Mr. Lindhart, who Gold Dust and Bills of Exchange Purchased. stated that he had paid sums of money for permits, in December last; on 22nd De-cember received permit shewn him and paid the money to Mr. Angele, Cross-examined by Mr. Jones. Does not know the number of the permit; does not

remember how he paid the money; whether in coin or compensation tickets; does not remember whether he received money in change from Angelo at the time; does not know what Angelo did with the compensation tickets; the compensation tickets were taken the same as cash. Att. General.—Witness does not remem-

ber if he paid in cash as well as in compention tickets : he considered the tickets the same as each.

same as eash. Thomas Williams sworn. He had paid money to Mr. Angelo for a Harbor License, on the 12th May, amount \$17.50. Cross-examined by Mr. Jones: Does not know at what time of day he paid it : paid the money to Angelo in the Custom House, in cold coin in gold coin.

Cross examination by Mr. Jones, Does not know Mr. Angelo's writing; Mr. An-gelo gave me the paper and the money was with a duition of importing charges. paid to him. Attorney General—Witness gave securi-ty; he signed a paper which Mr. Angelo DRUGS, CHEMICALS, PERFUMERY made out; he did not know whether it had anything to do with the S10. The Attorney General then found that

S10 had been entered the next day, and as it was entered in blank, and might be the amount paid by Muir; he requested the jury to dismiss that evidence from their minds.

Judge Begbie was then sworn, and idenified a letter handed to him, as one which he received from Mr. Angelo about the 21st of July; it was dated 21st July, and con tained a request from Mr. Angelo that Judge Begbie would appear as a witness in his case. The Attorney-General produced tained Judge Begbie as a witness, in order to give the defence an opportunity of cross-examining him, but Mr. Wight declined to take advantage of it. Mr. Mackay, the next witness, being in the Assembly, the court was adjourned until half-past one.

MONDAY MORNING, AUG. 15.

THE TOPIC OF THE DAY.

Every new feature in the movements of the forces of the United States, in relation to the occupation of San Juan, indicates a disposition to fortify, colonize, and render it as much a part and parcel of the United States, as San Francisco. The large force now directed thither gives a flat denial to the assumption, that a frontier post as a defence against the incursions of the northern Indians, was the sole object. We take the present movement to be a deep laid scheme-concocted since the return of Mr. Nugent, the American Agent, to Washington -in order to secure, if possible, a cession of the island. We are led to this conclusion by occasional notices since that period, in the eastern press, that a difficulty was anticipated, in regard to the boundary. But it is difficult to see what the United States can gain by a military occupation, except a means to enlist public feeling in favor of the recent convictions. At the Cowitchen the movement, in order to present a hostile encampment, within the city limits, on front throughout the country to Great Bri- Sunday evening, a pailfull of "lightning" tain. He Hence we hold that the military occupation of San Juan, will have as dishonorable a Alexander, who state positively that they termination as it has had a commencement.

LATEST FROM THE NORTH .- By the arrival of the Nanaimo Packet from Fort Simpson, letters have reached here from Capt. Torrens. His party reached Fort Simpson, July 22d after a safe and pleasant voyage of 20 days. A party of four or five who had reached there before him, had been up Nass river prospecting, but without results owing to the river being too high. Indications of gold are plenty. A part of this company are going to Skeena river, which is reported rich in quartz veins, Capt. Torrens made arrangements with them to share the results of their discoveries, by ngreeing to inform them in return, if any discoveries were made on Queen Charlotte's Island, to which he intended to go the same day the letter was written, with two canoes and six weeks' provisions. The pioneers are full of hope owing to reports which have reached Fort Simpson that rich mines had been found in Queen Charlotte, and labor only required to take out the gold. They gave up the canoes, and chartered the Packet because the Indians would not work, Capt, Denman was very sick at Fort Simpson.

Another claimant is found to San Juan, in the Cowichin Indians, fishing at the north end of the island. They deny but to do business only at one place under the right of the "Bostons" to occupy the one license. Each partner has to pay the island till they pay them for it. We learn the American authorities intend to buy them out,

By arrival of the Julia, on Saturday, from Steilacoom, we learn that an express had just arrived from Walla Walla, stating that the Snake Indians had killed all the Indian agents, and some forty friendly Whatcom, on Saturday, in which several Indiane, and burnt up the reservations,

FORT YALE CORRESPONDENCE.

FORT YALE, Aug. 10, 1859. EDITOR BRITISH COLONIST :--- On the 30th inst., Ruell Turner, a miner on Cross Bar, between the Kanyons, died of congestion of the brain. Deceased was a native of Maine. He was interred by his partners.

Drowned.

Two Indian boys, on the morning of the 3d inst, were drowned, opposite New York Bar, by the capsizing of a cance while they were engaged in fishing.

On the 8th inst. the body of a drowned man was picked up at this place, by Indians. A post mortem examination was held by Dr. G. E. Crane, which disclosed the fact that the man must have been murdered, down by next trip of the Douglas. and afterwards thrown into the water to hide the crime. Who the man was is a mystery; but it is hoped that the perpetrators of the deed will yet be captured.

A man named Patrick Crowley, working on Prince Albert's Flat, was instantly killed, on Monday morning last, by the caving of a bank of dirt, which he was preparing to remove. The body was brought ties at San Juan are ended. to Fort Yale, and buried by his friends.

Liquor-selling to Indians

From Fort Alexender.

By Mr. James Batterton, who arrived says that men have arrived at Lytton from can make fifty dollars per day, to the hand, anywhere-that the diggings are extensive. and that all the culches and ravines are rich with gold. Dry diggings' prospects as high as two dollars to the pan, of coarse gold, have been obtained. All along the Upper Fraser men are rushing eagerly towards the new placers.

The excitement in this place and through the Kanyons is intense, and, I do not doubt, if the news holds good for a fortnight, we shall see a rush, only equalled, in proportion, to that of last year to Fraser River from California.

BRITISH COLUMBIA LICENSE ACT, 1859.-A Proclamation, dated August 10, has been issued, repealing all former laws in relation to licenses for selling liquors, and enacts, in substance, as follows :-

By each person vending spirituous or fermented liquors, by retail, for each house or place in the colony, where carried on, in a town £25 per year.

If liquors are retailed in any rural district, not a part of a town £10 per year.

A person not having a retail license as above, but selling wholesale, C10 a year.

Each person carrying on any other trade £1 every three months, this license allowing them to change their abode at pleasure, same.

Any person occupying Crown Lands, and carrying on any business included in the above, to pay ten shillings for every month. The licenses are payable in advance.

Latest from Fraser.

The steamer Gov. Douglas arrived on with 43 passengers, about 15 of whom were miners. Considerable dust in private hands, amount not known.

Business was much more lively at Doughas than at Hope. The trail is progressing slowly, owing to the withdrawal of the forces. There are now only about 30, left at work.

News from F. Alexander is contradictory. One account extremely favorable-another that it is a humbug, gotten up by interested parties.

COACHES FOR RED RIVER .- Messrs. Bur-Concurs for RED RIVER.—Messrs. Bur-bank & Co., to-day despatch for Breckin-ridge, on Red River, two four-horse post coaches. This is the first attempt at con-necting St. Paul with the valley of the Red River by regular land conveyance. At Breckinridge the coaches will connect with the Anson Northrup for Pembina and Fort Converse A number of necessary results. A number of passengers go up to Garry. day in the coaches, and among them two Scottish ladies, the Misses Sterling, who Scottish ladies, the Alisses Stering, who are en route for Lake Athabasca, 1,700 miles north of St. Paul. They have come from Scotland alone, and will proceed to Fort Garry by Burbank's stage line and the Anson Northrup, where they will take one of the annual trains sent by the Iud-son's Bay Co, from that post to Lake Atha-baska. But one train leaves Garry yearly for that far-off locality. To give a roman-tic color to the affair, it is only necessary to add, what we hear is the truth, that one Dan Cupid is the moving cause of this long and perilous journey.—St. Paul Pioneer,

THE DOOM OF THE WORLD .- The North selves some traces of destructive elements. and some indications of their power, the fragments of broken planets—the descent of meteoric stones upon our globe-the whirling comets wielding their loose material at the solar surface-the volcanic erup-tions on our own satellite-the appearance new stars and the disappearance of others, are all foreshadows of that impend-ing convulsion to which the world is ing convursion to write the world is doomed. Thus placed on a planet which is to be burned up, and under heavens that are to pass away; thus residing, as it were, on the cemetries and dwelling upon the mausoleums of former worlds, let us learn the lesson of humility and wisdom, if we have not already been taught in the school of revelation.
